For 62 years doctors have been coming daily to this Hospital to donate their time without charge. During the past year over three score of them donated 40,000 hours of work to the task of giving sick and injured children the very best chance for the recovery of health and homister. and happiness.

Crippled? Deformed? Hurt in an accident? Suffering from Disease? Just "yes" to any of these questions has always opened the doors of this institution to children in need of hospital care.

No distinction has ever been made in respect to race, creed or circumstances.

The Provincial and Municipal Governments each contribute a fixed amount per day for those who cannot pay. But these grants-do not contemplate the cost of medicines, operating rooms, exygen, X-rays, plaster casts, anaesthetics, special diets and extra nursing—and they do not provide for the cost of many, many other necessary items.

Each year we depend on public subscriptions to cover these extra costs. Won't you help this very worthy cause?

Please send your gift direct to 67 College Street, ronto. We employ no canvassers.

WE NEED YOUR HELP-THIS YEAR! EVERY

Needy children from all over the Prov ince are treated regardless of race, creed or financial circumstance.

This policy has been continued for over 50 years in the firm belief that everyone who understands the facts would want this great work to continue... would agree that no Ontario child should be denied a chance for health or escape from deformity if mere money makes the difference.

The Hospital receives no support from the Toronto Federation for Community Service because patients are accepted from all parts of the Province.

We must therefore appeal to a humane and generou public to take care of an annual deficit . . . this year it is \$78,930.53.

For a Few Dollars You Often Can Double The Satisfaction and Pleasure of Motoring

Wear in a motor car often is so Imperceptible that the owner fails to notice that any particular thing is wrong and only vaguely realizes that the car does not handle nor ride as it did when new.

A few adjustments, some inexpensive replocements, proper lubrication, a general tightening up and the old car will give you the thrill of a new one when you drive. Such care saves for more than the cast by preventing more expensive deterioration, and the cast of the care to be preventing more expensive deterioration to the case of the care to the case of the care to the care to the case of the care to the care

Here is a completely equipped automobile service institution with all the modern short-cut, cost-sowing machines and devices. We make a specialty of restoring the cor to brand new efficiency. Drive in and let us tell you what, if artything, your car needs, to be at its best.

News ever has been the forerunner of progress. Civilization advanced, industry developed, trade and commerce expanded as facilities for circulating news improved.

When John Bushell published the first Canadian newspaper at Halifax in 1752 the inns and coffee houses of the scattered Canadian settlements were the principal sources of news. There the pioneers foregathered to gossip about personal and community affairs and to discuss the problems of their trades. Anyone unable to attend knew little or nothing of events beyond his immediate environment.

Bushell proposed to print the news and make it available to all. The first issue of his Halifax Gazette was a single sheet of paper printed on both sides. It contained a publisher's foreword, a few items of local interest, some foreign and

colonial news. (most of it six months old), and three advertisements.

Modest as the venture was, it expressed an ideal of public service which endured.

Soon newspapers were established in other communities. Constantly this service has been extended until now the daily newspapers of Canada bring to every citizen the latest news of people, events and achievements in all parts of the world.

The first Canadian newspaper had seventy-two subscribers; today in more than two million homes throughout the country at least one daily newspaper

Without this day-to-day record of social, economic and political affairs at home and abroad, progress would be retarded and the welfare of the individual and the nation seriously impaired.

Customers were all friends or neighbours. The ability and integrity ncies arose. iational emerge of every craftsman were well-known and created a demand for the commodities he made; his success

was measured by the goodwill he enjoyed. Communities grew and prospered; new settle-ments were established and thrived; the demand for manufactured products rapidly increased. Distant markets became accessible as transportation facilities improved. The scope of industry widered, goods were shipped farther and farther from every plant, and it became necessary to gain goodwill towards products and their makers in remote towns and villages where they were unknown.

The newspapers have provided this vital service to Canadian industry at every stage of its development. No other medium could ensure the frequent,

Today the manufacturing industries of Canada from coast to coast. Production has been central-ized, distribution systems organized, but the success every enterprise still depends on customer dwill.

Therefore, progressive companies continue to use the local daily newspapers as an integral part of merchandising. Experience has proved that the daily newspapers of Canada, bought and read by more than two million families every day, provide the most economical and effective means whereby any industry can create public confidence in its policies and profitable demand for its products.

CROONER ON ITALIAN BROADCAST

Hamilton Speciator commenting on the irith and Italian broadcasts to the Arabs in the freest corrows and bassons, notes that a Arabs according to the story in the press, sweed to prefer on Italian broadcast, be-state of a cronent, tokes a sky hirt of the down radia public. It says: "Now, it is a ny-remorkable thing that the British should yet slipped like this. We do not understand thy they could not have taken a tip from the eneral tastes of the radio public, and tried uit a crooner too. Why they should have put he Arab on a higher plane of intelligence han the civilized whites it is difficult to fign the civilized whites it is difficult to fig-out. People like their propaganda as the pills—sugar-coated. And that goes for the

It's a natural question. And there's a logical answer—to meet a definite and for a car like the new De Luxe Ford V-8 for 1938.

The De Luxe was designed for those who like the basic Ford features but want more size and style. It brings both size and style at low Ford prices.

THE DE LUXE-THE STANDARD The De Luxe is an addition to the Ford line. It is spacious, with richer appointments. Sedans have a larger luggage space. And under the hood is the S-horsepower V-8 engine.
The new Standard Ford is in ma

ways a better car than the 1937 Ford ought by more people than any other 1937 car. It is newly styled, inside and out. It is even lower priced than the De Luxe, but built to the same high standard of mechanical excellence. It

COME to our showrooms—take a look at the new Chevrolet —and you'll agree it's the smartest, most attractive of all the lowest-priced cars for 1938.

Get behind the wheel—feel the power and dash of that 85-horsepower Valvoin-Head Engine—and you'll thrill to a new performance "high".

But don't stop with that. Check the advantages of buying your new Cherrolet right now, as thousands are doing. For example ... you can face bad weather conditions confidently with this ... you can face had weather conditions confidently with this great new cars—no starting troubles, no repair expense. You'll get the priceless safety of perfected Hydraulie Brakes, new tire treads for sure grip on alippery roads, the protection of the All Stef Turret Top Body by Falher with Safety glassic severy window... And not to be overlooked is the fact that by having now you naw depreciation and costly upkeep on your present cars.

Chevrolet puts you ahead in everything . . . ahead in style, ahead in comfort, ahead in safety . . . and ahead in the little it costs you to buy your Chevrolet now!

YESTERDAY WAS TORONTO DAY IN THIS COLUMN and we devoted several paragraphs to that city which tries to live up to its much publicised moniker of "Toronto the Good". Just for good measure and as generous Addenda we might mention that to the stranger within its gates Toronto folks seem always in a desperate hurry and take all kinds of chances, walking against the traffic, paying little or no attention to traffic regulating lights. The way pedestrians mix up with the motor traffic is a caution and no wonder the casualty list is so high. . . . Another thing w man of a very practical nature, an argest man for a very practical nature, an argest man grant of the processions, which were the proposed of might mention is the sale rushes in the stores. The Company has a margin over all liabilities of approximately \$4,700,000, embracing free surplus of \$2,902,611, investment reserve of \$1,500,000, together with the excess of market value over book value of securities. When considered with the stringent valuation of policy liabilities this margin saures continued assistancesy resums to policy-holders.

As a mintal Company North American Life has but out-objective and responsibility—to render the highest type of Life Assurance Service to its policyholders who are the sole owners of the Company and who alone receive all benefits. Your co-operation and interest in the affairs of the Cor have contributed greatly to the progress of the

BECAUSE of their unvarying high quality, Turrets have made many people change their minds about cigarettes—without any "high-pressure" methods. We say of them only this: here is a cigarette made from choice of them only this nere is a tigarete lander store theme.
Virginia tobacco, combined in an original and unique blend
which makes Turrets just that much different, just that much
better. And so we suggest, if you haven't smoked a Turret
lately, try a package today. We believe you will like them.

"I never would have believed that the new ontion was so much improved."

A score or more of motorists have made that remark in our display rooms recently. There are so many new things about the 1938 Pontion that you don't see at first glance but which bring a new and greater handling ease and riding comfort.

Won't you come in and let us show you what the engineers and designers have done to make the current Portioc the greatest automobile of all time? Whether you are in the market for a new car is immaterial. Just come in and see this car.

And get better acquainted with this institution. Sooner or later you will buy a new car. We want you to know about us when you do. For here is a place where we sell satisfactory miles of transportation, not just an automobile. The good car is only part of the picture:

In emphasizing the importance of such matters to policyholders, Mr. Mitchell pointed out that on this continent over one third of the entire population bolds life insurance policies. Through this means, a still larger proportion of the total population in vitally interested in the safety of these aggregation of agridly which have resulted from their combined thirti.

Payments to policy owners, annuitants and beneficiaries in 1937 amounted to \$23,514,630. Of this amount, \$15,649,158, or 66%, was distributed to living policy owners and annuitants.

Since 1847, the Company has paid to or accumulated for policy owners, annuitants and beneficiaries, more than \$650 millions—over \$50 millions more than it has received in premiums.

Dividends to policy owners have been de-clared for every year without exception over the past 89 years. The total amounts to \$104,600,000, which is 74.2% of the Company's total death claims paid to date.

We do not mean to suggest that everyone ought to smoke Turrets—all of us are entitled to choose the cigarette they suits us best. But we do know that Turret smokers seldon find complete satisfaction in any other cigarette. The reason is Turret's unique and original blend of fine Virginia robecoe which makes Turrets just that much different—just that much better. And so we suggest if you haven't smoked a Turret large, but a package rought in the where the most of the property of the property

PLACES

To carefree places I pass through I carry on my journey
All the mirth and merriment that I have

ever k ever known, The music of low laughter and the cadence

of love And—I am never lonely though I travel all alone.

In quiet places where I halt there waits me on my journey
Moonlight on a silver sward and sunlight
on the seo,
dolence of rain-drenched earth and tang of

ched forests And-I am happily at home though no on

But in an unforgotten place where I pause

upon the highway
To goze around me reverently—so still the
day and fair—
raised my eyes too suddenly and saw the
soul of beauty,
And — ever since that moment I have
glimpsed it everyyhere.

BUT it's the LITTLE THINGS that count

New drapes for the guest room, and Junior's first haircut. A new recipe for peach pie and new pans for baking it. A picnic at the beach, and a new hat for the weekly bridge. Every day events? Of course! But they're the things that make life livable! What's a war in Illyria and another Arctic expedition, compared to the thrill of the first glimpse of the family that's moving in next door, and the delivery of a shining new refrigerator? What's a royal wedding, and twelve rooms filled with gifts, when Anne has her fifth birthday tomorrow? They're interesting enough, something to talk about, to wonder at, perhaps, but pretty far away from that most important spot and the people who live there . . . your own home.

That's where your heart is, and that's where the real thrills, lie, in the things that concern you and the people who live around you, next door, in the next block, anywhere in town. There's news about them in every issue of the daily Ontario Intelligencer in "inside page" stories—and in every ad too, for the ads in the Ontario Intelligencer are news! There's news about new clothes for the family, and new food for the table, and new furniture for the home. There's news about new entertainment, and new ways to get to it. There's news about something new on every page, from the latest dispatch on the front page to the new shoes for Anne on the last... all written to you and for you, put up in a neat package and delivered at your door-step every day.

WORKERS IN HIS GARDEN

WORKERS IN HIS GAR Called to be a worker, In the garden of the Lord, The smile of our Redeemer, Will be our rich reword, His presence, ever near us-Will cheer us on our way, As we labor, for The Moster, In His garden, day by day.

There are thirsty souls, to water,
There are hungry, to be fed,
There are weck ones, to be strength
And the blind ones, must be led,
There are sonely hearts, to comfort,
Discouraged ones, to cheer,
And to timid ones, to whisper,

MILE AND LEASE COMES AND LEASE

Civilization advanced, industry developed, trade and commerce expanded as facilities for circulating news improved.

NEWS!

When John Bushell published the first Canadian newspaper at Halifax in 1752 the inns and coffee houses of the scattered Canadian settlements were the principal sources of news. There the pioneers foregathered to gossip about personal and community affairs and to discuss the problems of their trades. Anyone unable to attend knew little or nothing of events beyond his immediate environment.

Bushell proposed to print the news and make it available to all. The first issue of his Halifax Gazette was a single sheet of paper printed on both sides. It contained a publisher's foreword, a few items of local interest, some foreign and

colonial news. (most of it six months old), and three advertisements.

Modest as the venture was, it expressed an ideal of public service which endured.

Soon newspapers were established in other communities. Constantly this service has been extended until now the daily newspapers of Canada bring to every citizen the latest news of people, events and achievements in all parts of the world.

The first Canadian newspaper had seventy-two subscribers; today in more than two million homes throughout the country at least one daily newspaper

Without this day-to-day record of social, economic and political affairs at home and abroad, progress would be retarded and the welfare of the individual and the nation seriously impaired.
